

# STAR LIU

U.S. Citizen    Personal Website    [github.com/StarLiu](https://github.com/StarLiu)    Latest CV    Google Scholar    [slui97@jhmi.edu](mailto:slui97@jhmi.edu)

## EDUCATION

<b>2023-Present</b>	<b>Johns Hopkins School of Medicine (JHSOM)</b>
Degree	PhD in Biomedical Informatics and Data Science   Mentor : Harold P. Lehmann
Dissertation	<i>Aligning clinical predictive models with clinical decision making via elicitation, calibration, and threshold selection</i>
<b>2021-2023</b>	<b>JHSOM</b>
Degree	Master of Science in Biomedical Informatics and Data Science Research   Mentor : Harold P. Lehmann
Thesis	<i>Model Usefulness : Aligning Utility and Prevalence in Use and in Training of Clinical Machine Learning Models</i>
<b>2017-2021</b>	<b>Emory University</b>
Degree	Bachelor of Science in Quantitative Sciences, Biology Concentration   Mentor : Seunghwa Rho
Capstone	<i>Building a Predictive Model for Fire Incident Risk in Atlanta</i>

## COMPETENCIES

<b>Programming &amp; ML</b>	Python (PyTorch, pandas, numpy, scikit-learn) • R • SQL • Deep Learning • LangChain • Azure
<b>Health Economics</b>	Markov Models, Decision Trees, TreeAge
<b>Databases</b>	Microsoft SQL Server, CosmosDB, MongoDB
<b>Vocabularies</b>	ICD-9, ICD-10, RxNorm, LOINC, SNOMED-CT, CPT
<b>Data Sources</b>	EHR, Claims, <a href="#">Healthcare Cost and Utilization Project</a> , <a href="#">Medical Expenditure Panel Survey</a>
<b>Softwares</b>	GitHub, Overleaf, Microsoft Excel, Slurm, FileZilla, Tableau, QGIS, Google Analytics

## PUBLICATIONS AND PREPRINTS

### Published - Journal and Conference

1. Sood PD, **Liu S**, Kalyani RR, Kharrazi H. Comparing computable type 2 diabetes phenotype definitions in identifying populations of interest for clinical research. *BMJ Health Care Inform.* 2025.  PMID : 41125310
2. Barrett R, Lawler B, Liu S, Park WY, Davoodi M, Martin B, Kalyanam SM, Makker K, Kuiper JR, Aziz KB. Transforming neonatal care through informatics : A review of artificial intelligence, data, and implementation considerations. *Semin Perinatol.* 2025.  PMID : 40973564
3. Sood PD, **Liu S**, Pandya C, Kharrazi H. Assessing the Impact of Computable Type 2 Diabetes Phenotypes on Predicting Healthcare Utilization Using Electronic Health Records and Administrative Claims. *Healthcare (Basel).* 2025  PMID : 41008424
4. Sood PD, **Liu S**, et al. Measuring the Impact of Data Quality and Computable Phenotypes on Potential Racial Disparities in Predicting Healthcare Utilization Among Type 2 Diabetes Populations. *Racial and Ethnic Health Disparities.* 2025  PMID : 40425977
5. Al Gharaibeh FN, **Liu S**, Wynn JL, Aziz KB. The utility of neonatal sequential organ failure assessment in mortality risk in all neonates with suspected late-onset infection. *J Perinatol.* 2025.  PMID : 40251303

8. Sood P, **Liu S**, Kharrazi H. Measuring the Effect of EHR Data Quality in Identifying Type-2 Diabetes Population Across Common Phenotype Definitions of Diabetes. *AMIA Annual Symposium*. 2022. [Poster] [Link to Poster](#)
9. **Liu S**, Golozar A, McLeggon JA, Black A, Nagy P. The OHDSI Community Dashboard : Tracking the Health and Impact of the Open Science Observational Health Data Sciences and Informatics Community. *Observational Health Data Sciences and Informatics (OHDSI) Symposium*. 2022. [Software Demonstration] [Link to Abstract](#) [Link to Software](#)
10. **Liu S**, Wall E, Patel SA, Park Y. COVID-19 Health Equity Dashboard - Addressing Vulnerable Populations. *IEEE Visualization for Communication Workshop*. 2020. doi:10.31219/osf.io/2frha. [Case Study] [Link to Case Study](#)

## RESEARCH EXPERIENCE

### Johns Hopkins School of Medicine

Baltimore, MD

Present -  
Jan. 2025

#### Independent Research - Self-initiated with PhD colleague

Clinical quality measures automation : LLM-powered mapping from CQL to OMOP SQL

- > Reduced manual mapping time from days to minutes via LLM-powered pipeline using LangChain to automate translation of clinical quality measures from Clinical Quality Language to executable SQL on OMOP databases
- > Engineered Model Context Protocol (MCP) integration to provide LLMs with structured access to OMOP vocabularies and VSAC value sets, improving mapping accuracy through enhanced context retrieval
- > Evaluated system performance against gold-standard clinician reviews; preparing manuscript for JAMIA

[Python](#) [LangChain](#) [LLMs](#) [MCP](#) [OMOP CDM](#) [SQL](#) [Healthcare Standards](#)

Present -  
Jan. 2024

#### Graduate Researcher | PI : Jim C. Fackler | Anesthesia and Critical Care Medicine

Estimating the risk of adverse drug events (ADEs) associated with broad-spectrum antibiotics among septic patients

- > Conduct cohort discovery and characterize the risk of ADE across partner OMOP databases
- > Define the risk profiles of ADEs and support broad-spectrum antibiotics administration
- > Predict the risk of ADEs occurrence among pediatric patients with sepsis using statistical and NLP methods

[ADEs](#) [Antibiotics Stewardship](#) [Pediatrics](#) [Sepsis](#) [OMOP](#) [Network Study](#) [Phenotyping](#)

Present - Jun. 2023	<b>Graduate Researcher   PI : Khyzer B. Aziz   NICU Precision Medicine Center of Excellence</b> Neonatal sepsis and antibiotics stewardship : Analyzing treatment patterns and outcomes <ul style="list-style-type: none"> <li>&gt; Queried 90K+ neonates across 9 years of multi-million row NICU EHR data using SQL to analyze neonatal outcomes and antibiotic treatment patterns relative to organ dysfunction</li> <li>&gt; Engineered 20+ clinical features from temporal data to train ML algorithms (Random Forest, XGBoost, Clustering, LSTM), revealing that poor predictive performance signals inconsistent stewardship practices</li> <li>&gt; Leading manuscript for JAMA Pediatrics analyzing antibiotic use patterns; co-authoring multi-center studies to inform sepsis treatment guidelines across multi-center study sites</li> </ul> Python SQL Large-scale EHR data Feature Engineering Statistical Methods Predictive Modeling LSTM
Present - Nov. 2021	<b>Graduate Researcher   Mentor : Harold P. Lehmann   Decision Sciences Lab</b> Clinical predictive model evaluation in the context of use : Aligning ML models with clinical decision-making <ul style="list-style-type: none"> <li>&gt; Developed novel ML evaluation framework (Applicability Area) published at AMIA 2023, improving clinical utility assessment by incorporating harm-benefit tradeoffs, enabling better model selection for healthcare deployment</li> <li>&gt; Deployed interactive Azure dashboard for real-time sensitivity analysis across clinical scenarios to optimize ML model prediction thresholds based on context-specific cost-benefit ratios <a href="#">Link to iCUDA dashboard</a></li> <li>&gt; Built 1000-stratum Markov microsimulation evaluating suicide risk prediction strategies across 100K patients with probabilistic sensitivity analysis</li> <li>&gt; Leading manuscript establishing method for identifying optimal ML model operating points using decision analysis; conducting 25 physician interviews to quantify clinical harm-benefit tradeoffs</li> </ul> Python R Statistical Modeling Markov Models Decision Analysis Azure Interactive Dashboards Qualitative Methods
Oct. 2025 - Nov. 2021	<b>Research Assistant   PI : Hadi Kharrazi   Center for Population Health IT</b> Understanding the effect of data quality on using phenotype definitions to identify diabetes cohorts <ul style="list-style-type: none"> <li>&gt; Processed 200K+ patient EHR and claims data; simulated 3 data quality scenarios across medical code systems (ICD, RxNorm, LOINC) to evaluate 4 diabetes phenotypes</li> <li>&gt; Built 20+ logistic regression models in R, demonstrating how data quality and phenotype choice impact downstream racial disparities in healthcare utilization predictions</li> <li>&gt; Co-authored 4 manuscripts informing equitable ML model development for population health</li> </ul> SQL R Large-scale EHR and Claims data Logistic Regression Statistical Modeling Health Equity
May 2023 Oct. 2021	<b>Graduate Researcher   Advisor : Paul G. Nagy   JHSOM</b> OHDSI Community Dashboard : Assessing the health and impact of the OHDSI ecosystem ( <a href="http://ohdsi.azurewebsites.net/">http://ohdsi.azurewebsites.net/</a> ) <ul style="list-style-type: none"> <li>&gt; Co-developed an automated ETL pipeline from PubMed, Google Scholar, YouTube, and EHDEN and mapped texts to standard terminologies using standard APIs</li> <li>&gt; Implemented/debugged the first version of the interactive tool with 3 front-end dashboards each with 3 features using Python, Flask, Dash, and Azure back-end</li> <li>&gt; Established an open-source framework for evaluating open-source scientific communities</li> <li>&gt; Led the writing of a manuscript accepted by JAMIA Open</li> </ul> OHDSI APIs Flask Dash HTML Azure CosmosDB GitHub Manuscript
Sep. 2022 Oct. 2021	<b>Graduate Researcher   Advisor : Hadi Kharrazi   JHSOM</b> Assessing the racial and socioeconomic disparities in postpartum depression using population-level hospital discharge data : A longitudinal retrospective study [Published] <ul style="list-style-type: none"> <li>&gt; Conducted literature reviews on postpartum depression, diagnosis, and racial disparities</li> <li>&gt; Constructed logistic regression, multinomial regression, survival analysis, and sensitivity analysis using R and Healthcare Cost and Utilization Project datasets for Maryland (2016-2019)</li> <li>&gt; Published a manuscript and led its writing, journal submission, revisions, and correspondence</li> </ul> Manuscript Maternal Health Disparity HCUP R Regression Analysis

## Emory University and Rollins School of Public Health

Atlanta, GA

May 2023 Jan. 2021	<b>Research Assistant   PI : Mohammed K. Ali   Rollins School of Public Health</b> The associations of collaborative care intervention components with depressive symptoms and metabolic outcomes in the INDEPENDENT study : A mixed methods study <ul style="list-style-type: none"> <li>&gt; ETL and analyzed 196 patients' longitudinal data and conducted multiple logistic regressions using R</li> <li>&gt; Wrote the statistical methods section and produced the appropriate figures for the manuscript</li> <li>&gt; Assisted the first author in writing a manuscript accepted by Primary Care Diabetes (second author)</li> </ul> Longitudinal Clinical Trials Data Mixed Methods R Regression Analysis Manuscript
-----------------------	--

Jun. 2021 May 2020	<b>Research Assistant   PI : Shivani Patel   Rollins School of Public Health</b> COVID-19 Health Equity Dashboard ( <a href="https://covid19.emory.edu/">https://covid19.emory.edu/</a> ) <ul style="list-style-type: none"> <li>Managed daily ETL process via Python scripts, integrating incident, demographic, vaccine, and SDoH data</li> <li>Implemented and managed back-end MongoDB database solutions using Python</li> <li>Implemented/debugged 20+ front-end features using NPM, React JS, React Simple Maps, and HTML</li> <li>Led the writing as the first author of a case study accepted by the IEEE VisComm 2020</li> </ul> COVID-19 Interactive Dashboard Python MongoDB JavaScript Case Study Presentation
May 2020 Jan. 2020	<b>Undergraduate Researcher   Mentor : Seunghwa Rho   Emory University</b> Atlanta Fire and Rescue Department : Predicting fire incident risk <a href="#">Link to Report</a> <a href="#">Link to PPT</a> <ul style="list-style-type: none"> <li>Pre-processed and aggregated +8 million observations of geospatial data on historical fires</li> <li>Optimized a random forest model to predict fires with 40% sensitivity and 90% specificity</li> <li>Delivered an R Shiny interactive dashboard to visualize predictions in use</li> <li>Received positive feedback from the Atlanta Mayor's Office, City Planning, and the Fire Department</li> </ul> Geospatial and Longitudinal Data Predictive Modeling Random Forest Interactive Shiny App
Jun. 2020 Sep. 2019	<b>Volunteer Research Assistant   Rollins School of Public Health</b> Diabetes care utilization and health equity research <ul style="list-style-type: none"> <li>Wrangled Medical Expenditure Panel Survey and Healthcare Cost and Utilization Project data using R</li> <li>Conducted literature reviews on diabetes, preventable hospitalization, and care utilization</li> <li>Conducted consistent 30, 90, and 120-day phone interviews with a cohort of 24 patients with stroke</li> </ul> Diabetes Survey Data Panel Data R Literature Review Phone Interviews

## PROFESSIONAL EXPERIENCE

### RightPatient

Dunwoody, GA

Aug. 2019 May 2019	<b>Analyst   Supervisor : Michael Trader</b> <ul style="list-style-type: none"> <li>Liaised and delivered 2 million images from public safety agencies for the R&amp;D project on opioid addiction</li> <li>Developed 4 client leads for the ACO patient-centered care software and relayed to the demo team</li> <li>Was entrusted with managing 358 client accounts on Zoho CRM for our patient wellness initiative</li> </ul> Healthcare Technology Startup R&D Customer Relations Sales
-----------------------	---

## TEACHING & MENTORSHIP

2025 2023	<b>Graduate Teaching Assistant   Johns Hopkins School of Medicine</b> Clinical Decision Analysis <ul style="list-style-type: none"> <li>Assisted the faculties in teaching decision sciences and utility theory and hosted weekly office hours</li> </ul> TA Decision Analysis Treeage Office Hours
2025 2023	<b>Graduate Teaching Assistant   Johns Hopkins School of Medicine</b> Implementing Fast Healthcare Interoperability Resources (FHIR) <ul style="list-style-type: none"> <li>Assisted the faculties in teaching FHIR and hosted weekly office hours</li> </ul> TA FHIR Office Hours
2023 2022	<b>Graduate Teaching Assistant   Johns Hopkins School of Medicine</b> Clinical Data Analysis with Python <ul style="list-style-type: none"> <li>Assisted the faculties in teaching Python and hosted weekly office hours</li> </ul> TA Python Office Hours
Jul. 2022 Jul. 2022	<b>Bootcamp Consultant   Instructor : Hadi Kharrazi   Bowie State University</b> Public Health Informatics and Technology 4-Week Bootcamp <ul style="list-style-type: none"> <li>Assisted the program faculties in teaching R and Tableau to a class of 15 students</li> <li>Hosted daily office hours and coached 4 capstone project groups</li> </ul> Bootcamp R Visualization Capstone projects
May 2021 May 2018	<b>Academic Fellow Captain, Academic Fellow   Emory University</b> Annual International Student Welcome and Mentoring Program <ul style="list-style-type: none"> <li>Coordinated two orientations with 14 colleagues, oversaw 26 fellows, and mentored 24 mentees</li> </ul> Peer Mentorship Program coordination

## PEER REVIEWS

2021 - Present Reviewer | JAMIA Open

## CERTIFICATES

---

Apr. 2021 - No Expiration	Information Privacy Security   JHMI CITI Program   Credential ID : 45798326
Apr. 2021 - No Expiration	Health Privacy Issues for Researchers   JSPH CITI Program   Credential ID : 45562106
Oct. 2021 - Oct. 2026	Basic Human Subjects Research   JSPH CITI Program   Credential ID : 45562104
Oct. 2021 - Oct. 2024	Social and Behavioral Research Best Practices for Clinical Research   JSPH CITI Program   Credential ID : 45562105
Oct. 2021 - Oct. 2023	Human Subjects Research - Biomedical Research   JHMI CITI Program   Credential ID : 45733041
