

## EDUCATION

<b>2023-Present</b>	<b>Johns Hopkins School of Medicine (JHSOM)</b>
Degree	PhD in Biomedical Informatics and Data Science
<b>2021-2023</b>	<b>JHSOM</b>
Degree	Master of Science in Biomedical Informatics and Data Science Research
Advisor	Harold P. Lehmann
Thesis	<i>Model Usefulness: Aligning Utility and Prevalence in Use and in Training of Clinical Machine Learning Models</i>
<b>2017-2021</b>	<b>Emory University</b>
Degree	Bachelor of Science in Quantitative Sciences, Biology Concentration
Advisor	Seunghwa Rho
Capstone	<i>Building a Predictive Model for Fire Incident Risk in Atlanta</i>

## COMPETENCIES

<b>Programming</b>	Python, R, SQL, HTML, JavaScript, CSS, Java
<b>Frameworks</b>	Flask, Dash, React JS
<b>Databases</b>	Microsoft SQL Server, CosmosDB, MongoDB
<b>Vocabularies</b>	ICD-9, ICD-10, RxNorm, LOINC
<b>Data Sources</b>	EHR, Claims, <a href="#">Healthcare Cost and Utilization Project</a> , <a href="#">Medical Expenditure Panel Survey</a>
<b>Softwares</b>	GitHub, Overleaf, Microsoft Excel, Slurm, FileZilla, Tableau, QGIS, Google Analytics

## PUBLICATIONS AND PREPRINTS

### Publication - Journal and Conference

- Liu S**, Golozar A, Buesgens N, McLeggon JA, Black A, Nagy P. A framework for understanding an open scientific community using automated harvesting of public artifacts. *JAMIA Open*. 2024;7(1):00ae017. Published 2024 Feb 29. doi:10.1093/jamiaopen/00ae017  PMID : 38425704
- Hassan S, **Liu S**, Patel SA, Emmert-Fees K, Suvada K, Tandon N, Sosale A, Anjana RM, Mohan V, Chwastiak L, and Ali MK. Association of collaborative care intervention features with depression and metabolic outcomes in the INDEPENDENT study : A mixed methods study. *Prim Care Diabetes*. Published online February 14, 2024. doi:10.1016/j.pcd.2024.02.001  PMID : 38360505
- Liu S**, Wei S, Lehmann HP. Applicability Area : A novel utility-based approach for evaluating predictive models, beyond discrimination. *AMIA Annu Symp Proc*. 2024;2023:494-503. Published 2024 Jan 11.  PMID : 38222359
- Benamer K, Gross PJ, **Liu S**, Koneru S. The Mediterranean Soul Food Diet Intervention After Stroke, a Feasibility Study in the Stroke Belt. *American Journal of Lifestyle Medicine*. 2023;0(0).  Sage Journal Article : 10.1177/15598276231208383
- Liu S**, Ding X, Belouali A, Bai H, Raja K, Kharrazi H. Assessing the Racial and Socioeconomic Disparities in Postpartum Depression Using Population-Level Hospital Discharge Data : Longitudinal Retrospective Study. *JMIR Pediatrics Parenting*. 2022;5(4):e38879. Published 2022 Oct 17.  PMID : 36103575
- Belouali A, Bai H, Raja K, **Liu S**, Ding X, Kharrazi H. Impact of Social Determinants of Health on Improving the LACE Index for 30-Day Unplanned Readmission Prediction. *JAMIA Open*. 2022;5(2):00ac046. Published 2022 Jun 10.  PMID : 35702627
- Sood P, **Liu S**, Lehmann HP, Kharrazi H. Assessing the Effect of Electronic Health Record Data Quality on Identifying Patients with Type 2 Diabetes. *JMIR Medical Informatics*.  PMID : 38850555

### Publication - Under Review

- Liu S** and Martin B, Park WY, Northington F, Valdez RC, Makker K, Kuiper J, Nagy PG, Minty E and Aziz KB. Phenotype Development and Evaluation for Neonatal Hypoxic Ischemic Encephalopathy Using Electronic Health Record. *Frontiers in Neurology*. [Under Review]
- Li ZY, **Liu S**, Ho JC, Narayan KMV, Ali MK, Varghese JS. Translating Subphenotypes of Newly Diagnosed Type 2 Diabetes from Cohort Studies to Electronic Health Records in the United States *Nature Medicine*.  Preprint
- Sood P, **Liu S**, Kharrazi H. Evaluating the Effect of Type-2 Diabetes Phenotype Definitions in Identifying Populations of Interest for Clinical Studies and Research. *BMJ Open Diabetes and Care*. [Under Review]  Link to Manuscript
- Sood P, **Liu S**, Pandya C, Kharrazi H. Assessing the Impact of Computable Type-2 Diabetes Phenotypes on Predicting Healthcare Utilization using Electronic Health Records and Administrative Claims. *Health Services Research*. [Under Review]

## Publication - In Preparation

12. Sood P, **Liu S**, Kharrazi H. Assessing the racial bias in Predicting Healthcare Utilization Stemmed from Variations in Diabetes Phenotype Definitions. *JAMIA Open*. [In Preparation]

\*See latest CV for updates (found in the header).

## PRESENTATIONS, POSTERS, AND CASE STUDIES

1. **Liu S**, Lehmann HP. Clinical Utility Profiling (CUP) : A practical method for choosing predictive model cutoff ranges based on target deployment. *AMIA Annual Symposium*, 2024. [Podium Presentation] [Link to Slide and Abstract](#)
2. **Liu S**, Lehmann HP. Identifying and Visualizing the Optimal Cutoff on the Receiver Operating Characteristic (ROC) Curve. *SMDM*. 2024. [Poster] [Link to Poster](#)
3. **Liu S**, Wei SX, Lehmann HP. Applicability Area : A Novel Utility-based Approach for Evaluating Predictive Models Beyond Discrimination. *AMIA Annual Symposium*, 2023. [Podium Presentation] [Link to Podium Presentation](#)
4. **Liu S**, Lehmann HP. Assessing the Dimensions of a Dataset Most Sensitive to Cost-Sensitive Loss Functions : A Simulation Study. *SMDM*. 2023. [Poster] [Link to Poster](#)
5. Sood P, **Liu S**, Kharrazi H. Evaluating the Variations in Healthcare Utilization Predictions Across Common Phenotypes of Type 2 Diabetes Using EHR and Claims Data. *AMIA Annual Symposium*. 2023. [Poster] [Link to Poster](#)
6. Sood P, **Liu S**, Kharrazi H. Measuring the Effect of EHR Data Quality in Identifying Type-2 Diabetes Population Across Common Phenotype Definitions of Diabetes. *AMIA Annual Symposium*. 2022. [Poster] [Link to Poster](#)
7. **Liu S**, Golozar A, McLeggon JA, Black A, Nagy P. The OHDSI Community Dashboard : Tracking the Health and Impact of the Open Science Observational Health Data Sciences and Informatics Community. *Observational Health Data Sciences and Informatics (OHDSI) Symposium*. 2022. [Software Demonstration] [Link to Abstract](#) [Link to Software](#)
8. **Liu S**, Wall E, Patel SA, Park Y. COVID-19 Health Equity Dashboard - Addressing Vulnerable Populations. *Visualization for Communication Workshop*. 2020. doi:10.31219/osf.io/2frha. [Case Study] [Link to Case Study](#)

## RESEARCH EXPERIENCE

**Present -  
January 2023**

**Graduate Researcher | PI : Jim C. Fackler | JHSOM, BALTIMORE, MD**

Estimating the risk of adverse drug events (ADEs) associated with broad-spectrum antibiotics among pediatric patients with sepsis

- > Conduct cohort discovery and describe the risk of ADE across partner OMOP databases
- > Define the risk profiles of ADEs and support broad-spectrum antibiotics administration
- > Predict the risk of ADEs occurrence among pediatric patients with sepsis

[ADEs](#) [Antibiotics Stewardship](#) [Pediatrics](#) [Sepsis](#) [OMOP](#) [Network Study](#) [Phenotyping](#)

**Present -  
June 2023**

**Graduate Researcher | PI : Khyzer B. Aziz | JHSOM, BALTIMORE, MD**

Supporting antibiotics stewardship by detecting signals in nSOFA scores (neonatal severity of illness)

- > Engineered features from nSOFA scores and queried Neonatal Intensive Care Unit (NICU) data using SQL
- > Conducted cross-sectional (Random Forest, XgBoost, and SVM) and time-series data modeling (LSTM) to find signals for reducing unnecessary antibiotics
- > Prepare manuscripts for submission

[Antibiotics Stewardship](#) [NICU](#) [Feature Engineering](#) [Time-series Data](#) [Python](#) [Manuscript](#)

**Present -  
November 2021**

**Research Assistant | PI : Hadi Kharrazi | Bloomberg School of Public Health, BALTIMORE, MD**

Understanding the effect of data quality on using phenotype definitions to identify cohorts with diabetes

- > ETL 200K+ patient EHR and claims data using SQL and derived descriptive statistics using R
- > Simulated 3 induced data quality issues on ICD, RxNorm, and LOINC for both claims and EHR data
- > Constructed 20+ logistic regression models to assess disparities in data quality by race in claims and EHR
- > Assisted the first author in writing and preparing 4 manuscripts for submission (second author)

[Data Quality](#) [Phenotyping](#) [EHR](#) [Claims](#) [R](#) [SQL](#) [Logistic Regression](#) [Manuscript](#)

**Present -  
November 2021**

**Graduate Researcher | Advisor : Harold P. Lehmann | JHSOM, BALTIMORE, MD**

Examining the impact of asymmetric cost in machine learning – clinical utilities analysis

- > Programmed fully factorial simulations with 6 parameters and 6 machine learning models using Python
- > Established a novel utility-based approach to evaluating machine learning model performance
- > Applied the novel utility-based approach to 3 medical datasets and compared against traditional metrics
- > Led the writing of a manuscript accepted by AMIA 2023 Symposium and held a podium presentation
